1.

I find this second image quite distracting. I am not convinced it's the right place for it

Connecting brands to media destinations worldwide.

One Delivery logo

You have hundreds of campaigns across multiple destinations. You need control, visibility, and a global reach.
OneDelivery is trusted by creative agencies, brands, and media owners worldwide to manage and deliver media campaigns, 24/7, and on-demand.

One platform, one solution, one delivery.

I would not advise asking the reader to rollover the text to bring it into view.

Unparalleled visibility

Take your productivity to the next level with a single view of all your media campaigns. Track the progress of each media delivery with near real-time accuracy.

Enhanced control

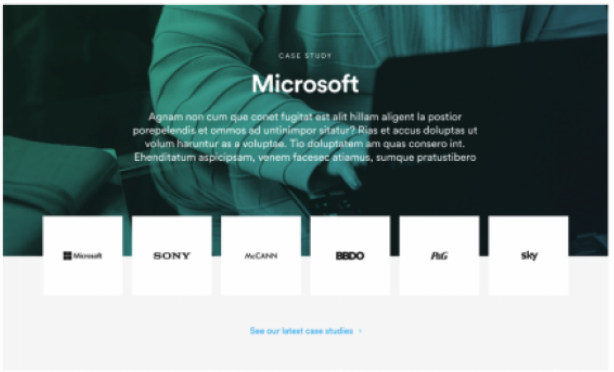
Manage and control all your digital assets in a single place. Give more time to your creativity by using our streamlined order flow and automated QC to get more done.

Global reach

Take advantage of the world's only truly cross-media delivery platform, reach audiences across media destinations, whenever, wherever.

2.

This should be a quote or re-worked testimonial from a customer. Alternatively, if you have some information about how MS uses OneDelivery, I can provide some copy.

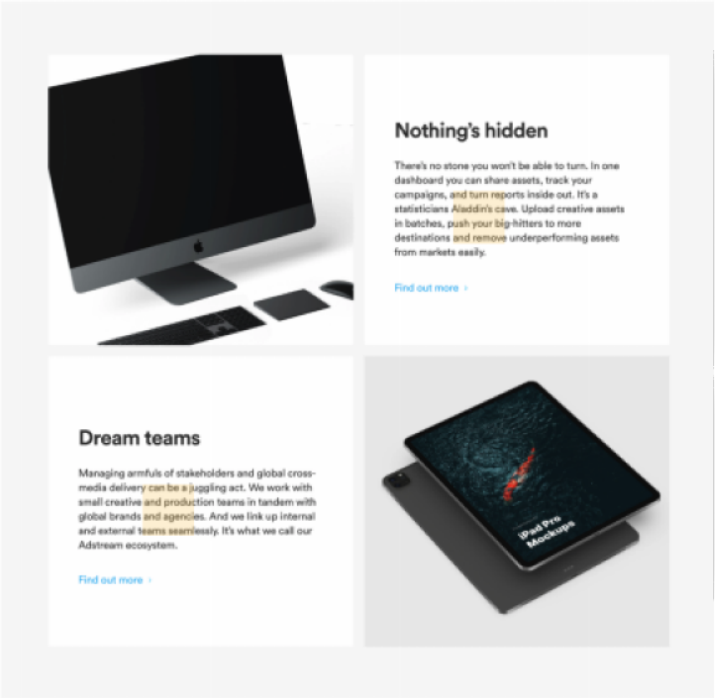


21st century marketing. Delivered

The media landscape has shifted. Responding to change is more important than ever. With automated, intelligent processes, and a streamlined interface, we enpower brands and agencies to **do more**, **save time**, and **prove value**.

With over 26 million assets, 2 million deliveries per year, and support for more than 46 languages, One Delivery is the perfect tool for 21st century marketing.

3.



Nothing's hidden

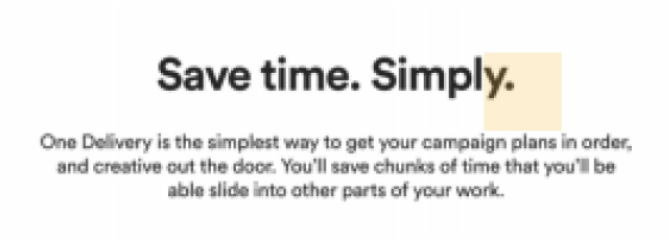
More visibility
Upload creative assets, track campaigns, and create reports from a single dashboard.

More control
See what's working and what's not.
Push your best performers to more destinations to supercharge the impact and mamimize returns.

Dream teams

Whether you're looking to share assets with marketing or creative teams, involve stakeholders in review and approval, or connect to other digital platforms, OneDelivery integrates into our wider Adstream ecosystem for 360° connectivity.

4.

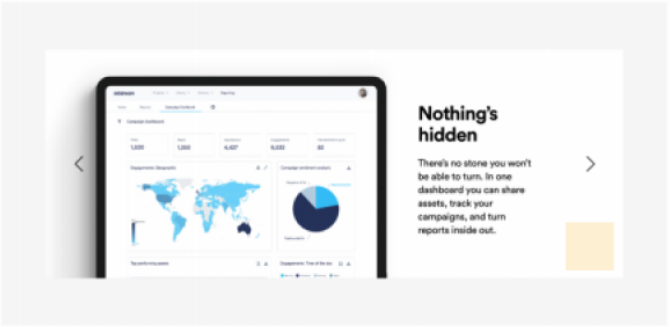


Focus on value

Your time is precious, focus on what drives value for your business. With an intuitive UI and simple but powerful controls, One Delivery helps you get your campaigns in order and creatives out the door.

Free yourself, give more time to your creativity.
Do more with less.

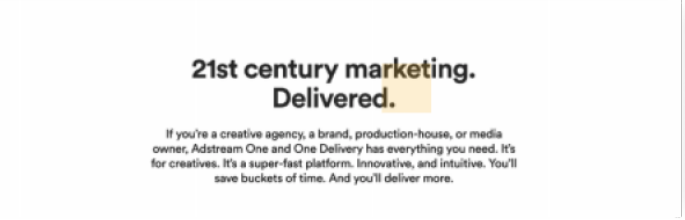
5.



Quality. Guaranteed.

2x more accurate than standard auto and manual checks, OneDelivery combines manual checks with our Intelligent QC and Auto QC smarts, to help you get your content right to spec, on time, and where you need it.

File rejections become a thing of the past.

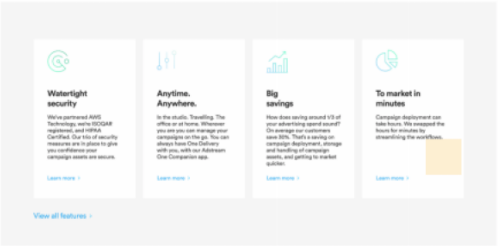


Media Destinations?
We've got you covered.

Unrivalled TV and cross-media coverage, with over 80,000 global destinations, including linear TV, VOD, Social Media platforms, and Radio.

Global reach. Delivered.

6.



Scalable and secure

We've partnered with AWS to deliver a scalable, reliable, and secure global computing infrastructure. We're built for speed and can scale as you grow.

We're ISOQAR registered and HIPAA Certified to ensure your campaign assets are secure.

Anytime, anywhere

In the studio or at home. Traveling. With our Adstream One Companion app, you can manage your campaigns and track progress wherever you are, when it suits you.

Big savings

On average our customers save 30% on advertising spend. That's a big saving on campaign deployment, storage, and handling of campaign assets.

To market in minutes

Campaign deployment can take hours. With our streamlined workflow, you can get campaigns out the door in minutes.
